Air Filled Wiggle Seat Cushions:

Kids think these seat cushions are "cool beans", but they really are filled with air! Most items are dynamic, air filled seat cushions. They may help fidgety or under aroused students maintain an appropriate level of alertness & attending, by providing ongoing vestibular, (movement) input, in a manner acceptable in the classroom. Additionally, they help facilitate a more upright sitting posture, strengthen trunk muscles & reduce back strain from prolonged sitting. Most are made of high quality plastic for durability, easy cleaning & Latex free. Easily transportable and great for home and school use.

MODERN BALL CHAIR

The molded plastic frame and high back rest on this chair combine to make it a very comfortable, very stable, seating system. Perfect for use in the classroom, at home, or in the office. Sitting on the flexible slightly bouncy ball helps improve posture, sitting tolerance and attention to task.

C1999 Child 35cm ball \$110.95

C2888 Adult 52cm ball \$125.95

BUMPY DISC JR SEAT CUSHION

This seat cushion is 13" in diameter, has one bumpy and one smooth side and inflation level can easily be adjusted. The greater the inflation level, the more movement possible. In general, it has a thinner profile than other disc's. Also great for working on standing balance and for floor sitting.

C6451 \$34.95

CHOKING HAZARD Small Parts/Plug Not for under 3.

SENSEEZ VIBRATING CUSHION

Help ease the senses, soothe and calm the body. Simply squeeze or sit on to activate those "good vibrations"! Developed by a mom for her son who had difficulty focusing and sitting in one place for meals and in the classroom. Lightweight, so easy to take along and use where-ever the child goes; school, library, restaurants, Grandma's, car, planes & hair-cuts too! Choose from easy-to-clean and versatile, blue vinyl square or the touchable line that are fuzzy, furry, plushy, or bumpy materials all with tails. Colors, styles and availability vary.

T7067 Touchables (Cow/Turtle) \$44.95

T7067J Octopus/Jelly Fish \$49.95

FITBALL WEDGE

Same great wedge shaped design as the Move'N Sit in a slightly firmer, more rugged material. Provides dynamic seating, allowing movement while also improving posture. Smooth on one side, bumpy on the other. Try one for in the classroom and at home during meal times or when doing homework. This wedge has no carry handle.

C6458 Large 13" blue wedge \$32.95

C6414 Small wedge 10"green \$30.95

CHOKING HAZARD Small Parts/Plug Not for under 3.

MOVE 'N SIT WEDGE SEAT CUSHIONS

These wedge shaped cushions come with one side highly textured with small bumps and one smooth side. Level of inflation is easily adjusted with a few puffs of air. Wedge shape offers slightly less movement so safer for those with less secure sitting balance. Also try with wide edge toward front to increase hip flexion or as a back support. 2 sizes available.

C6405 Jr/Preschool (~ 10"x10") \$34.95

C6406 School Age (~13"x 13") \$39.95

SWISS DISC®

This disc is a round, slightly textured cushion with a larger 15" diameter and slightly beveled edges for added sitting comfort. Comes inflated to approximately a 2" thickness. Using any pin valve pump, air can easily be added or removed. Great as a marker and floor sitting aid during "circle time" or any floor activity. Also used to improve balance in kneeling and standing.

C9110 \$37.95

FITBALL SEATING DISC

Similar in design to the bumpy disc jr. The Dome-like profile is smooth on one side, bumpy on the other. green 12".

C6413 \$27.95

FITBALL BALANCE DISC

A very versatile and dynamic piece of equipment. This 14" inflatable air filled cushion can be used for sitting, standing or kneeling. Attractive blue color with long sensory points on one side, and a smooth, flat surface on other side. Great for home, classroom and clinic use.

DESK BUDDY

It's true—the best ideas are the simplest and frequently the most obvious. Developed by a long time teacher who found her students needed a place to contain all the small school supplies which otherwise take up space on their desk tops. Made

of 7"x12" pliable, transparent plastic for ease in cleaning, durability, and ready visibility of the contents. Use year after year to hold papers, folders, scissors, crayons, pencils and so much more. Two Velcro strips keep it attached to side of desk or chair for easy accessibility. There is even a front pocket to hold nametag. A wonderfully simple way to help organize a student and your classroom!

Q7028 \$14.95

CLASSROOM CHAIR SEAT CUSHION

This seat cushion is not air filled, but was designed for the "antsy" student, the student who always sits on the edge of the seat or the student that sits on a corner of the chair with his/her feet out in the aisle. It helps to center the hips, by providing a small padded, physical well. The physical barrier on three sides help orient the child to where his body is in space. Made of extra tough, durable material and stuffed with a non-food substance. A large non-slip mat is sewn on the bottom to eliminate sliding. Available in 2 sizes and is hand washable.

CINDY'S EASEL

Amazingly versatile piece of equipment developed by an OT for use in a classroom or therapy setting. Sturdy, 15" x 12" crystal clear table top easel, 6 full sized -double sided activity sheets, pack of 6 dry erase markers, pack of 8 jumbo white board crayons and fabric eraser. Unique, "flip down" design allows 2 children to work at the easel at the same time. Simply slide in an activity sheet and start writing.

U5027 \$79.95

Sheets cover a wide range of activities including, tracing, coloring, letter, number and shape formation, "what comes next"? etc. Or use your own preprinted sheets of mazes, dot to dot and word searches. You can even try working on spelling words and math problems as the kids just love writing on the easel! Makes a great Learning Center in a classroom. Once you start using Cindy's Easel you and the kids will find an endless number of ways it can enhance learning!

MINI LOOP SCISSORS

Finally, the ease of a loop scissor in a small, child size. The 5 in. scissor has a wider grip area for greater stability and it automatically reopens when pressure is released. Great beginning scissor for preschools, first-time cutters, or those with small hands. Suitable for use with either hand.

C7343 \$6.95

GOLDILOCK SCISSORS - JUST RIGHT

Its overall size is small (only 3"), it has short 1" blades and smaller-child size finger holes. This makes them "just right" for little hands. They come in true right or left handed models and they are ADORABLE! Please note the finger holes are not coated like the Benbow Scissor.

W7304G Right/ Left \$3.95

BENBOW SCISSORS

Wonderfully crafted scissors designed specifically for little hands.

With small, vinyl coated, finger holes, shorter overall length, and a real cutting edge, control is increased. Using these scissors, cutting is more successful - so kids love using them!

3" Training Scissors

W7304 Right \$4.95

W7305 Left \$4.95

TOTAL CONTROL SCISSOR FOR KIDS

Same great Fiskars quality with shorter, precision ground blades, blunt tip, safer cutting angle and an extra index finger loop for better cutting control. Teaches proper finger placement right from the start.

C5460 \$3.95

LOOP SCISSORS

Lightweight, self-opening scissor with a continuous molded plastic flexible loop. Actual handle is wider than most and longer cutting blades allow for easier feeding of paper. Operate by gently squeezing, using fingers and thumb or fingers and palm. Release pressure and blades re-open automatically. Great first scissor or when strength is limited.

C7341R Right \$9.95

C7341L Left \$9.95

SELF OPENING LONG HANDLED SCISSORS

This scissor combines the added control of the long molded plastic finger opening with the greater ease of a self-opening mechanism. Isolated thumb hole facilitates isolated thumb movements. The result is greater success for even your most difficult cutters.

C7389R Right \$11.50

C7389L Left \$11.50

SELF OPENING SCISSORS

Looks like a conventional high quality scissors with molded plastic finger openings. But they re-open automatically when pressure is released. Assists when finger strength & motor planning is difficult. The finger holes are wider than most, for finger stability. Isolated thumb and finger holes facilitates isolated finger movements. A nice scissor for those not ready for Benbow's.

C7362R Right \$9.95

C7362L Left \$9.95

SPECIAL NEEDS SCISSORS

Unique rotating spring-clip morphs this from a standard scissor into a "self opening" pair. Squeeze stainless steel blades closed by applying pressure through the finger holes or through the outside of the plastic handles. Once pressure is released the blades will open automatically. Works well for beginning cutters or for those with finger strength or mobility difficulties.

C1341 \$4.95

CRAZY CUTTER

Amazing "mouse" shaped cutting device utilizes new ceramic technology. The small ceramic blade at the tip will last forever but never cut your finger. It will cut paper, pictures, plastic packaging, shrink wrap

and much much more. Held between thumb and index finger, cutting occurs as the Crazy Cutter is dragged along the surface of the paper. Since paper is cut while flat on table it only needs to be stabilized and not grasped. This will make cutting an easier and more successful task for many children and adults.

C7916 \$5.95

SCISSOR BONANZA

Convenient, economical way to order a wide variety of scissors. You receive 1 of each of our most popular scissors. Right & left pairs where available. All the scissors teachers & therapists will need to evaluate & meet the cutting needs of their students. Price may vary slightly to reflect scissors included. All at a discounted price. (So picture may not be accurate)

DEVELOPING CUTTING SKILLS

Developed by OTs and teachers, these books target specific skills that will enable children to develop the coordination needed for accurate cutting. Easy to use, reproducible worksheets provide a wealth of activities. Book 1, for younger students, starts by reviewing the proper way to hold scissors and open and close them. Next, students are taught how to hold and snip paper and then how to cut in a single direction and to cut along a line. Book 2 covers the cutting of corners and curved lines. The movement of the paper holding hand and the different directions in which right and left handed cutters cut is also part of the instruction. These are important but little addressed steps to successful scissor use. Books also include developmental milestones that can be used for planning, assessment, and creating IEPs.

W7859 Book 2: stage 4 \$16.95

DEVELOPING SCISSOR SKILLS ACTIVITY BOOK

What a time saver, a collection of scissor training activities. Over 60 reproducible cutting exercises in a 90 page spiral bound book. Written by pediatric occupational therapists, the book reviews the impact of sitting posture, shoulder stability, arm and wrist control, fine motor skills, visual perceptual skills and bilateral integration on the development of scissor skills. Also proper holding, the steps to scissor skill development, the left-handed child and pre-scissor activities. Then activity sheets for cutting straight lines, lines with one and then more than one directional change, curves and circles. Next are simple project outlines to reinforce the skills practiced on the exercise sheets.

C7399 \$37.50

KUMON FIRST CUTTING

The exercises in this workbook will provide students with the opportunity to practice using scissors accurately and to improve fine motor control. You get 40 colorful, visually interesting scissor tasks printed on special paper stock, just right for cutting. Activities progress in difficulty of shape being cut and in thickness of lines. Students start by cutting straight lines, and move on to angled, curved lines, circles and finally irregular shapes. The line thickness start at .5 mil and ends at .3 mil. A great way to introduce young children to scissors as a basic tool!

W5362 \$8.50

KANGAROO'S EARLY CUTTING ACTIVITIES

This 47 page book provides students the opportunity to practice fine motor, and early perceptual/spatial skills as they color, cut, glue and fold the reproducible worksheets. Activities include jigsaw puzzles, symmetrical pictures and picture construction. Bold, uncluttered visually appealing graphics motivate students to work independently, increase concentration and develop the ability to work in an orderly fashion. Grounding in these areas ensures smooth progression to the next level of development. The activities are specifically designed to allow students to experience success, developing confidence and a positive self image toward themselves as a learner.

THE PENCIL GRIP

Soft pillow pencil grip fits children

or adults and left or right handed writers. Place thumb on the "R" or "L" and other fingers fall naturally into a cushioned tripod grasp. The larger size of this grip seems to work especially well with small hands, helping to maintain thumb abduction and an open web-space.

W3601 \$1.79

THE JUMBO PENCIL GRIP

New larger size, same great positioning! The Jumbo Grip's elongated shape and larger end makes it perfect for maintaining an open web space and proper finger placement. So comfortable it's like a "pillow" for the fingers. Latex Free.

W3634 Jumbo \$2.50

THE CROSSOVER GRIP

On to a basic "The Pencil Grip" body, they added a set of flexible wings. The wings help to maintain a mature tri-pod grasp with no hooking or "crossing over" of index finger and thumb. For either right or left hand use. Great grip provides support, comfort, and finger placement assistance.

W3602 \$1.75

GROTTO GRIP

Great sculptured grip facilitates and

maintains the fingers in a mature tripod grasp each and every time. Unique finger guards and special angles facilitate an open web space and hand and palmer arching. Discourages hyper-mobility at thumb and index finger joints. A grip with all the "write" stuff! Latex free.

W3652 \$1.65

SPONGY PENCIL GRIPS

HANDWRITER

This clever device does a number of things, all at one time to help maintain proper position of pencil in hand. To use: place the large loop around wrist, so that charm hangs straight down. Now hold charm into palm using ring and little fingers, then grasp pencil and place other loop around upper end of pencil. The pull or tension created helps keep the pencil at an appropriate angle in the web space. Many children respond favorably to this pull saying, they like the feel in their hand. The friendly plastic charm, facilitates isolation of the two sides of the hand by keeping the ulnar side closed. Recommended for use with implements a minimum length of 5 inches.

BETTER BUMPY PAPER: COLORING BOOKS

We have begun referring to these as the "sky high" coloring books. That's because the raised outlines of the drawings are the highest we have ever seen. This provides the greatest quantity of tactile input and the greatest deterrent to coloring outside the lines. Wonderfully successful for children with poor coordination, sensory irregularities and/or low vision. Level one books are simpler with a single object to color. Level 2 pictures are more complex and scene-like.

HANDWRITING HEROES - A LOWER CASE HANDWRITING PROGRAM

After years in the making, Handwriting Heroes is at long last here! This fun and highly effective program is easy to implement and designed to accelerate learning to write lower case letters accurately and fluently.

Letters are sorted into five groups based on their first stroke: skydivers, cannon pops, bouncers, skiers and surfers. Teaching the letters by their first stroke provides an easy way of remembering the letters and reinforces motor learning. Animations, stories, action words, and songs are used to engage all the child's senses to make learning quick, easy, fun and successful!

The Program is meant to be downloaded and re-produced by the user to save cost and to be used by one or several students. Pages maybe photocopied, re-printed, laminated or placed in a dry-erase pocket protector.

A variety of packs are available, each tailored for use in that setting. Please purchase the appropriate user pack for your setting. Rights to view Youtube.com video's on letter formations included in each pack.

(* A Handwriting Heroes app can be purchased separately in the apple store to reinforce letter formations.)

GREATEST DOT-TO-DOT BOOKS

These 48 page full size booklets take Dot-to-Dot designs to the next level. More fun than most, it is impossible to identify the incredibly detailed drawings until you connect the last few dots. For children or adults, the numbers go higher than most puzzles. Books also contain many creative variations of dot-to-dot never seen before. Some of these are called Stars, Field of Dots, Sets and Crazy Dots. Interesting and challenging way to work on numbering skills, visual-motor coordination, attending and visual perception.

LOOPS AND OTHER GROUPS - A CURSIVE HANDWRITING PROGRAM"

BY MARY BENBOW, MS, OTR

Loops

L

A wonderfully easy and imaginative program for teaching students from 2nd grade through high school, cursive handwriting. Especially effective for students with learning disabilities and perceptual delays. Letters are taught in groups that share common movement patterns. This taps into the kinesthetic system, helping students "feel" and visualize the letter formations. Easy to remember motor and auditory cues aide students in learning the letters. Two levels of booklets available. Level 1: is used with students during their first year of cursive writing instruction. Level 2: reviews lower case letters and concentrates on the practice of upper case letters.

"These games involve varying levels of visual-perceptual skills along with some degree of motor control. For many, the motor component may be eliminated. Some of the skills addressed include: matching, directionality, spatial relations, visual attending, memory and discrimination, scanning and tracking, sequencing, organization, classification, visual planning and critical thinking. These games may also be played on the floor or mat allowing for alternate positioning."

RONA'S DESIGN COPY

Comprehensive collection of 72 graded, dot to dot designs divided into 4 levels of difficulty. Beginner and Intermediate levels involve 4, 6 and 9 dot grids with designs that are to be copied into empty grids right next to the printed design. The Advanced level involves more complex, 16 dot grids and design must be copied onto a separate board. The Expert or Black Diamond designs are most difficult.

These designs show only the dots that were used in making the design. The rest of the dots comprising the grid are missing. This makes it much more difficult to orient spatially where and how the design fits and on to what size grid it should be drawn... Housed in an easy access ring binder, 2 or 3 students could work on different designs at one time. All pages are laminated and meant to be used with write and wipe markers or crayons.

WEDGIT JR. SET

A unique, 3 dimensional building and design copy system for children and adults. The bright, primary colored, chunky, plastic pieces are engineered to endlessly nest, link and lock together. Use your imagination or use the design booklet to form amazing structures and shapes, from simple to complex. Comes with 15 pieces, a storage rack, and small design booklet. Buy 2 for multi-player fun or as a great 3D design copy challenge. Inviting and easily successful at beginning levels, seemingly improbable as you progress. Great for working on spatial orientation, motor planning, head and arm stability, perceptual skills and problem solving.

V1908 \$24.95

MINI WEDGITS

These adorable little blocks are 40% smaller than their cousins in our Wedgit Junior Set; but otherwise they are exactly the same. You can even use the same design cards for both 15 piece sets. The new mini blocks offer a greater fine motor/manipulative challenge and can be fully integrated with all other Wedgit Sets. Comes stacked neatly in a black storage rack. Small size makes them perfect for therapy bags and as a "take along" activity.

V1937 \$11.95

WEDGIT DESIGN CARDS

40 color design cards for added design copy challenges. Four levels of difficulty with designs graded within each level.

V1932 \$7.95

MAGNETIC MIGHTY MIND

An award winning game with parents, teachers and children alike. Uses children's natural attraction to colors and shapes to develop skills in problem solving, creative thinking, counting, sorting, categorizing, spatial relationships and matching colors, shapes and sizes. There are 32 colorful plastic magnetic backed shapes all stored in handy tin. The series of 26 tangram like design cards become increasingly more challenging to build as you go. This allows players to develop the skills needed as they progress.

V5115 \$23.95

JUMBO GEO-DESIGN CUBES

Set includes 16 larger sized plastic cubes with silk screened red, yellow and/or blue triangles or squares on all 6 sides. Twelve pattern cards show designs in 2 or 3 dimensional representations, some with individual block outlines and some without. Or, make up your own simple to complex designs. All stores in plastic tray with lid. Great for developing spatial awareness, visual perception and attention to detail. Work on in-hand manipulation skills by challenging players to rotate blocks held in only one hand, no help from support services.

V1746 \$27.95

SETS

A very versatile and unusual deck of cards and a must for every classroom and therapy bag. The deck includes 81 cards. Each has either 1, 2, or 3 symbols on it. The symbols are either ovals, squiggles, or diamonds; either red, green, or purple, and either solid, striped, or open outlined. The original game calls for players to find SETS - 3 cards that have 3 attributes in common (i.e. all open, red, or go in number sequence). But these cards can also be used for sorting by 1 or more attributes. The uses are unlimited!

V6101 \$12.95

VISUAL DISCRIMINATION WORKBOOK

40 reproducible pages of interesting, engaging problems designed to develop visual discrimination, and critical thinking skills. Players study the relationship between two pictures and then use this information to determine which 2 of the next 4 pictures represents the same relationship. It's like a visual form of analogies for grades 1-12. Answers provided.

V6942 \$8.95

HIDDEN PICTURES

A delightfully illustrated, full color workbook with 64 fun hidden picture puzzles. The first 32 pages proceed from A-Z and the children are asked to find objects beginning only with the designated letter. The items to be found are pictured with their spelling across the bottom of the page. The final 32 pages are theme oriented and are a bit more complex. A terrific tool for working on visual perception, attention to detail and language skills.

V9750 \$3.95

A SENSE OF DIRECTION

BY LAURA SENA OTR/L

An amazingly comprehensive book of activities to help children build functional directional skills. The book contains 42 high interest activities and explains what you do, why you do it, how you do it and what to look for while you are doing it. Also provides a review of the developmental components leading to directional skills, pre and post tests, goals and objectives and a glossary of terms. Activities organized into 4 levels; 1. Body Awareness, 2. Self as a Reference Point, 3. Environment as a Reference Point, 4. Others as a Reference Point. This book is a must have resource for all those seeking to help clients who struggle with directional confusion.

V6613 \$68.95

BASIC TANGO PUZZLE SET

A versatile perceptual motor activity set. The boxed set includes 2 sets of 7 plastic Tango playing pieces in two colors and 54 puzzles to solve (answers are provided). All self contained in a plastic storage case. It was originally designed to be a race challenge between two players, but it can do so much more! Copy the answer card for basic design copying; have the client copy a design you create, use all the pieces or a few; or trace the shapes then color.

V5566 \$11.95

FIND IT GAME ANIMALS

It's like having a portable, self-contained sand bucket complete with hidden objects. In this highly colorful version you don't dig through the rice to find the objects you shake and turn the container in hopes of uncovering and spotting all of the animals hiding in the sand. Comes with score cards and a printed list of the hidden objects on the top. Great for working on visual attending, concentration and perseverance while encouraging arm and hand movements.

V3328 \$19.95

VISUAL-PERCEPTION

READY, SET, WOOF

Be the 1st to find which of the 30 pups on the board have the fur & collar colors you need. Kids LOVE the color selector then race to find the 2 attributes indicated. Simple

board layout so not a confusing visual field.

R3513 \$19.95

CATCH THE MATCH

These heavy cardboard playing boards are so busy with pictures and colors, they could make you dizzy! But that's part of the fun! Each of the 16 boards have exactly the same objects, just in different color combinations and in different locations or orientations. The trick is to find the one item on each board exactly the same in color. The identical item changes for each two boards. The person to find the match wins that board. Collect the most boards to win. For younger children use cards to facilitate language and to work on figure ground skills. Play individually or in a group.

V2304 \$9.95

I HAVE....CARD GAME

Developed by a 1st grade teacher, this is a fun, fast paced, no reading required card game for 2-4 players. First person puts out one card saying, as the card indicated, "I have....a cat," and then they flip the card over saying as indicated, "who has....a frog?" All players then race to be the first to put a matching card down

and say, "I have a frog," flip it over and say, "Who has....a giraffe?" Play continues in this fashion until someone gets rid of all their cards. This simple language based game packs a lot into a deck of cards, including verbalization, articulation, picture identification, auditory and visual processing, and sequencing. For younger children, letter recognition and reading vocabulary are strengthened as they, flip it, say it and play it!

L2064 \$9.95

ROBOT FACE RACE

It's a race to be the first to identify and rescue one of the 120 robots pictured on the board. Each shake of the Robot Identification Device indicates a different robot by the color of his eyes, nose, mouth and skin. First player to find this missing robot gets a purple chip. Five chips and you're a winner! As no 2 faces are the same, players work to sharpen their visual discrimination and concentration skills while improving attention to detail. Kids like the game so much it makes a great reward/reinforcer.

V3542 \$25.95

MAKE 'N BREAK

This terrific design copy and construction game will appeal to all! Comes with 10 same size rectangular wooden blocks in 10 different colors; deck of building cards and a timer. Collect points for all correct constructions completed

within the time limit. Modify play by eliminating the timer and using only level 1 cards. Three card levels provides every one with a perceptual and motor challenge. Structures are copied in the vertical orientation increasing the motor and upper extremity demand. Great family game!

M4770 \$32.95

PARQUETRY BLOCKS & CARDS

Classic set of 32 wood parquetry blocks in 6 brilliant colors and 3 shapes. Use the 20 included design cards inside the work tray or next to it for an increased visual challenge. If you are up for it, try fitting all the blocks into tray on your own, without copying a pattern. So inviting kids readily work on their design copy, spatial relations, and visual perceptual skills.

V3891 \$29.95

NEAR AND FAR: SAFARI

A unique 3-D game for working on spatial concepts and directionality. Comes with design cards of increasing difficulty, colorful and sturdy cardboard pieces and a slotted base. The object of play is to copy the design card, placing all the components in the correct orientation and in proper perspective to each other. Direction following and auditory processing skills can also be worked on by verbally describing a scene for re-creation, i.e.; "put the zebra behind the giraffe but in front of the tree." Additionally, children will enjoy making up their own stories using the pieces.

V8936 \$18.95

SWIPE OUT

Addictive game of high energy, and fast hands! Be the first to swipe the poker chips off your playing board, leaving only the chips matching the pattern on the swipe out card. Comes with 4, 10 x 10 inch game boards divided into 25 squares, 100 poker chips in 4 colors and 25 swipe out pattern cards. Great for building visual perception skills, visual processing, speed of response, design copy and hand skills. Have some extra fun stacking poker chips in creative patterns.

R2942 \$19.95

EVEN STEVEN'S ODD

Fast paced dice game where everyone races to roll their 6 dice until they get the numbers that complete the challenge on the card, i.e. all #3s or total of the colored dice is less than the total of the white dice. Then they must be the first to grab the squishy "Steven" doll to win the round. For 2-4 players, game comes with 24 dice, 40--2 level challenge cards and 4 dice holder.

Helps improve visual scanning and processing, memory and critical thinking while also working to develop the arches of the hand as dice are cupped in the hands.

V6234 \$19.95

TRACE-THE-8'S

A fun and engaging activity designed to be used with children or adults. It works on ocular-motor skills, midline crossing, laterality, eye-hand coordination and brain integration. This classic therapeutic activity has been totally re-imagined, wildly expanding its therapeutic range!

Set includes 10 fully laminated charts of increasing complexity, 2 dry erase markers and an eraser. Charts are meant to be used in a variety of ways and in various positions and orientations. Also comes with an Info Sheet outlining how to use, skills addressed, suggested variations, care and maintenance.

X5002 \$45.95

Q BITS

A beautifully crafted game of visual dexterity. Players puzzle over how to recreate the patterns on the game cards using their set of 16, two color, half inch cubes. Comes with 120 pattern cards and enough pieces for 4 players. Or save some money and split materials so each teacher/therapist has 2 sets of cubes and 60 cards. Play "head to head", individually or as a fast-faced 3 round competition. A great visual perceptual tool you will reach for again and again!

V9557 \$25.95

K - BASKETBALL: A KINES-THETIC GAME

K- Ball, short for Kinesthetic Basketball, is a game you play with your eyes closed! Impos-

sible you say.....read on! One side of the 11" x 17" dry-erase surface depicts an entire basketball court, complete with men and a scoreboard. The other side shows only half court with men arranged in foul shot position. The men are actually preprinted circles and squares in 2 different colors scattered across the court. The object of the game is for the human players to score points. To do so, your game piece or tip of a dry erase marker is placed on your shape at center court. Decide which of your teammates you want to "pass" to and practice that move 2 or 3 times with your eyes open. When ready, make that same move but with your eyes closed. If your dot lands totally inside your shape, then it was a successful pass and you get to go again. If you missed your mark, ball goes to the other side. Feeling lucky?... go for that 3 pointer! It's fun for young and old alike. So, why not challenge Grandpa to a game of K-Ball!

ZOOBS

Zoob is the greatest snap, click and pop together toy! Pieces come in 5 slightly different shapes and 5 colors, and all interact with each other. Zoobs are intrinsically easy to use, so kids are

not intimidated by complex connections. Simply push together and pull apart! And once together the pieces can move and rotate, increasing play value. Unlimited, open-ended building potential spurs the imagination but the 40 piece travel set does come with directions for some amazing creations, as well as a clear vinyl carry case with shoulder strap. There is also a special piece that provides a stable base for building or standing your constructions. Perfect, success oriented construction toy will

also improve hand and arm strength, motor planning and bilateral coordination!

B0441 \$19.95

Upper Extremity Stability

These toys and materials encourage the use of arm/hand in slow, controlled movements away from the body and against gravity. This also improves the shoulder stability and mid-range control or the arms needed for improved hand skills.

SUSPEND JR.

Carefully place each squiggly rod without knocking it all down!

U1771 \$16.95

BALANCE BIRD

Plastic birds with a wind span will balance on your fingers if you let them. See how long you can balance the bird on finger or plastic perch, while you stand on one foot, jump, walk or move your arm around. Also try bird on your nose contests or a bird in each hand.

TWEEZER SETS

Get one of each of the four tweezers. 3 stainless steel, 1 plastic as described below.

P9963 Tweezer Set \$9.95

P9962 Combo Set Tweezer & Tool kit \$38.95

J. LARGE E-Z OFFSET TWEEZER

These standard operating tweezers are 7 inch long stainless steel and require only a minimal amount of hand strength to squeeze closed. The pointy, not sharp, offset tip makes it easy to see the object you want to pick up. Quality construction allows for use as a precision tool capable of precise work. Pick-up paper clips, our new mini erasers, rice, etc. A great, highly durable addition to any "tool" collection.

P9965 \$2.95

K. E-Z REVERSE TWEEZER

It's a tweezer but you squeeze-er to open, not close. Release the tension and tip automatically closes. Five inch stainless steel tweezer requires little physical strength to operate. Pickup small items, place pegs, use one in each hand to string small beads. Fun tool for small hands. Has a pointy though not sharp tip.

P9964 \$2.95

L. RESISTIVE REVERSE OFFSET TWEEZER

Same concept as above but longer in length and more resistive to squeeze open. It also has a bent or offset point giving a clearer view of the object to be picked up. Wood-like overlay provides clear indication of finger placement for best balanced operation. Great tool for building hand strength and endurance.

P9966 \$2.95

ZOO STICKS FARM STICKS FISH STICKS

A great tool for little hands. Shaped like animals with long legs, these zany tongs can pick up even the smallest things. Try them with M&M's! Great for pre-scissor work & basic hand strengthening & coordination.

P2302 Zoo Stick \$2.50

P2304 Farm Stick \$2.50

P2306 Fish Stick \$2.50

M. PLASTIC TWEEZERS

At only 4 inches long, this "grabby, grippy" new hand tool is just perfect for little fingers. Specifically engineered to maintain alignment, the grooved plastic handle also provides tactile and visual cues for finger placement. Tip is pointed but not sharp and lined with non-slip teeth for holding items. Opens only 1/2 inch, so subtle and refined movement of the thumb and fingers are reinforced. Also great for working on midrange control of arms, midline crossing and range of motion. Try picking up small items including spiny balls, letter beads, colored rice, etc.

P2622 \$1.50

JUMBO TWEEZER

These colorful plastic tweezers feature ergonomic depressions to guide proper thumb-finger placement facilitating use of an open web space when working. Helps build hand and finger skills for better writing and fine motor skills. 6" length provides moderate resistance when picking up counters or small for sorting, midline crossing and range of motion activities. No color choice.

P6248 \$1.50

GLITTER POM POMS

Soft, colorful, fluffy ½ inch pom poms with the glittery threads that keeps them from sticking together. Perfect for picking up with any of our tongs, tweezers or other hand tools. 80 to a pack so there are plenty for group activities. How fast can you pick up all the red ones and put them in a plastic bottle? Also great for craft activities.

P6247 \$2.95

CRITTER BALLS

Perfect food for hungry animal snappers! A spiny ball with a cute little face and long tail! Great used with our toolkit for developing hand skills or as classroom manipulatives. See how many you can hold in one hand or will fit into cupped hands. Assorted colors; 6 critters per set.

P3905 \$2.95

HELPING HANDS TOOL SET

This colorful set of 4 high quality plastic tools makes working on fine motor control and

hand skills a breeze for the younger child. Set includes one each of the; small Gator Grabber Tweezers: Handy Scoopers/Bug Tong; Twisty Droppers where you squeeze the bulb to push an air stream out of the twisted tube; Squeezezy Tweezers which acts like a smaller, less resistive version of our Trap, (P8201). Children are highly motivated to use these terrific tools for building the little hand muscles needed to develop writing, cutting and fastening skills.

S7855 \$12.95

BABY SODA BOTTLES

You get 3 large clear plastic test tubes with soda bottle caps to keep them tightly closed. Perfect for securely storing pegs, pennies and other small manipulative. Great "put in" containers when using tweezers or tongs and as bottom is not flat but rounded, it must be held, facilitating bilateral hand use.

PFOT COLORING BOOK

First coloring book of its kind! This unique book contains 3 sets of 8 pictures. In each set the major lines that make up the drawing are of different widths. The lines of the 1st set are 1/4 in. wide and by the 3rd set the lines are down to 1/16 in. This concrete progression allows everyone; child, parent and teacher/therapist, to take note of and document progress in hand and arm control. Additionally, the teacher now can give all members of the class the same coloring page regardless of their skill level. Works the same for scissor use and cutting skills.

KUMON FIRST CUTTING

The exercises in this workbook will provide students with the opportunity to practice using scissors accurately and to improve fine motor control. You get 40 colorful, visually interesting scissor tasks printed on special paper stock, just right for cutting. Activities progress in difficulty of shape being cut and in thickness of lines. Students start by cutting straight lines, and move on to angled, curved lines, circles and finally irregular shapes. The line thickness start at .5 mil and ends at .3 mil. A great way to introduce young children to scissors as a basic tool!

W5362 \$8.50

K - BASKETBALL: A KINESTHETIC GAME

K- Ball, short for Kinesthetic Basketball, is a basketball game you play with your eyes closed! Impossible to say.....read on! One side of the 11" x 17" dry-erase surface depicts an entire basketball court, complete with men and a scoreboard. The other side shows only half court with men arranged in foul shot position. The men are actually preprinted circles and squares in 2 different colors scattered across the court. The object of the game is for the human players to score points. To do so, your game piece or tip of a dry erase marker is placed on your shape at center court. Decide which of your teammates you want to "pass" to and practice that move 2 or 3 times with your eyes open. When ready, make that same move but with your eyes closed. If your dot lands totally inside your shape, then it was a successful pass and you get to go again. If you missed your mark, ball goes to the other side. Feeling lucky?... go for that 3 pointer! Play individually or in teams. It's loads of fun and everyone's sensory system gets a real kinesthetic workout! Helps improve awareness of body position for young and old alike. So, why not challenge Grandpa to a game of K-Ball!

UNUSUAL SQUEEZE BALLS/ODD BALLS

We're very excited about these fun balls. They're tactile. They're visual. They're stretchy. They're squeezable. They're balls, but they don't bounce and they are very hard to put down! Each is slightly different, but all are highly pleasing to look at and play with. We could not decide which one we like best, so we got them all! (Although made of nontoxic and durable material, caution and common sense should be used. They will weaken over time and break. They also will break if punctured, bitten or abused. Choke hazards may be present if broken. Also, please avoid temperature extremes which will effect materials). **Please note: all balls on this page contain latex and maybe a choking hazard!**

SENSORY PROCESSING MEASURE

HOME FORM BY L. DIANE PARHAM AND CHERYL ECKER

MAIN CLASSROOM AND SCHOOL ENVIRONMENTS FORMS:

BY HEATHER MILLER KUANECK, DIANE A. HENRY AND
TARA J. GLENNON

The Sensory Processing Measure (SPM) offers a complete picture of a child's sensory functioning at home, at school and in the community. Recognizing that sensory processing problems often manifest differently in different environments, this set of 3 integrated rating forms assesses sensory processing, praxis, and social participation in elementary school children (ages 5-12). Firmly grounded in sensory integration theory, it provides norm-referenced standard scores for 2 higher level integrative functions - praxis and social participation - and 5 sensory systems - visual, auditory, tactile, proprioceptive, and vestibular functioning. The 75 item Home Form is completed by The Child's parent or home-based care provider. The Main Classroom Form (62 items) is filled out by the primary classroom teacher. The School Environment Form (10-15 items) per environment, completed by other school personnel. You will find the SPM comprehensive and clinically rich. It supplies the information you want and the psychometric integrity you need.

MOTOR-FREE VISUAL PER- CEPTION TEST - 3

The MVPT-3 is designed for screening and research purposes for those professionals who need a quick, reliable and valid measure of overall visual ability in children and adults (ages 4-94). The MVPT-3 requires no physical or motoric response from the individual being tested and so is especially useful with those who may have a physical disability or motor incoordination. The MVPT-3 assesses the following sub-areas of visual perception; Visual Discrimination, Spatial Relationships, Visual Memory, Figure-Ground, Visual Closure. The revised test features new normative data on a wider sampling and provides reliability and validity studies. The MVPT-3 takes about 25 minutes to administer and scoring is very easy.

Children Learn What They Live

If children live with hostility,
they learn to fight.
If children live with ridicule,
they learn to be shy.
If children live with tolerance,
they learn to be patient.
If children live with encouragement,
they learn confidence.
If children live with praise,
they learn to appreciate.
If children live with fairness,
they learn justice.
If children live with security,
they learn faith.
If children live with approval,
they learn to like themselves.
If children live with acceptance, and friendship,
they learn to find love in the world.
